Another year and still a few shooters missing that should be shooting (Especially the Police Squad) and only the South West Region were 'no cards received' in the 1st round, however, as can be seen above of those that qualified for the 2nd round only four were NCR.

Although there are not too many shooting the 2nd round, it has to be said that Ann's score of 595 was a quality shoot of the highest order. I was again unlucky with 594, but there is always the final for all the Regional Champions to have a crack at. I congratulate all the Regional Champions for making the final and they are the ones at the top of each region with their name and score underlined.

For the last 10 or so years we have had another final shot at the same time for the coveted Fred Jennings trophy. This being for the Top Ten shooters in the 2nd round and these shooters have an asterisk (*) by their score to indicate who they are – Again my congratulations go to these as this is the first year since 1996 that we have had over two people making 590 and above. I know that with a good set of middle scores and even those at the bottom of the top ten – all are very capable of hitting the 590 and above so it will make for an interesting and hopefully, exciting Final.

Now the moans.

No competitors from Wales.

It is still disappointing to see persons through to the 2nd round failing to shoot/return their cards. Another set back is the amount of chasing I have had to do as the vast majority of scores have been sent back at the last minute, some being late.

I will see all the finalists for the Regional Champion's Championship and the Fred Jennings Trophy on the firing point (Malcolm Cooper Range, Bisley) on Tuesday 13 September 2005. The match will commence at 1.30pm; so don't forget to be there early – ISSF rules apply. Time and circumstances allowing, there will be an Olympic Final for the Top Eight of the Fred Jennings Trophy.

Good Shooting,
